

OUT OF LINE: FOOD TRUCKS

THE LINES START HERE!

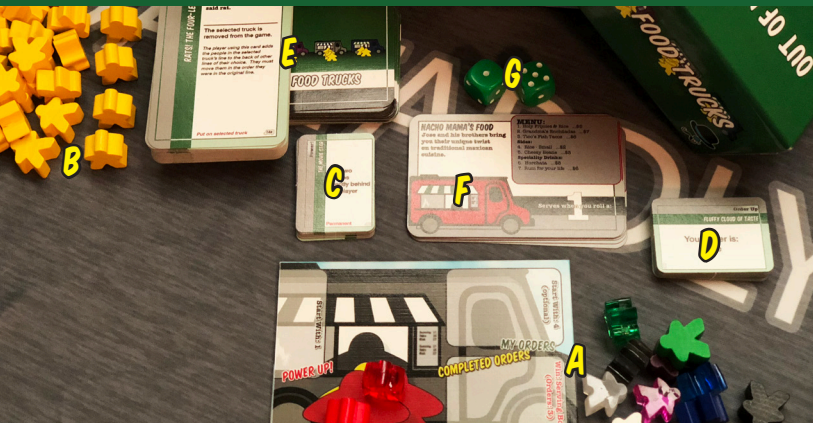

All the fun of waiting in a food truck line without the satisfaction of tasty food. Make your enemies into friends and your friends into enemies as you jostle to be the first one served!

*What is more fun than actually waiting in line?
Playing a game about waiting in line!*

OBJECTIVE:

Be the first player to fill all their orders. You fill your orders by reaching the front of a food truck line and being served.

WHAT'S IN THE BOX?

- A. 6 Player Mats with matching player tokens (2 each)
- B. 25 Yellow Foodie Tokens
- C. 18 Power! Cards
- D. 18 Order Up Cards
- E. 71 Action Cards
- F. 5 Two-sided Food Truck Cards
- G. 2 Die

HOW TO SET-UP:

- Each player selects a mat and the corresponding color player token of their choice, starting play with side of the mat displaying 1 color player token face-up.
- Shuffle and deal 2 order up cards, 1 power card, and 3 action cards to each player.
- Set out the 5 food trucks and place 4 yellow foodie tokens in line for each truck. Foodies are non-player controlled people in line controlled by cards.
- Starting with the person who most recently ate at a food truck, each player adds their player token to the food truck line of their choice. Multiple players may select the same line.

ON YOUR TURN:

1. Roll 1 die. The first player or foodie token in the corresponding food truck line is served and leaves the line. If a 6 is rolled, the player selects the food truck line of their choice to be served.
2. Take one of the following actions:
 - Play an action card.
 - Play a power card.
 - Discard up to 3 action cards from your hand.
 - Move your player token to the back of any food truck line.
3. Draw back up to 3 cards.

ROLL > ACTION > DRAW

VARIATIONS

FOR A FASTER GAME:

- Leave the order up and power cards out of play.
- The first player token to reach the front of a food truck line and be served, wins.

FOR A MORE COMPLEX GAME:

- Turn the player mats so the side displaying 2 color player tokens is face-up. Each player now takes 2 player tokens of the corresponding color.
- Shuffle and deal 4 order up cards, 1 power card, and 3 action cards to each player.
- Starting with the person who most recently ate at a food truck, each player adds their first player token to the food truck line of their choice. Each player's second player token is then placed, going in the reverse order. Multiple players may select the same line.
- On your turn, take 1 action for each of your player tokens still in a food truck line or add a token that is out of play to the back of any line.
